### **Contract Detail:**

*Buyer agrees that pups sold on limited AKC registration must be spayed or neutered by the age of 12 months. Any dog used for breeding should have their hips, hearts, and cystunaria certified prior to breeding.*

*The buyer agrees that he/she is buying the said Newfoundland for a pet and is not acting as an agent or broker for any other party. Should the buyer be unable to keep the Newfoundland for any reason, at any time in the future, he/she will allow Coal Valley Kennel the first option to take back the said Newfoundland or help to find a new home for him/her. Buyer is responsible for any expenses incurred with the purchase of the said Newfoundland. This includes but is not limited to shipping costs, food, veterinarian fees, and any supplies. Buyer agrees to provide the purchased puppy with exercise, food, water, current vaccinations, and shelter.*

*Coal Valley Kennel guarantees said Newfoundland to be healthy and up to date on shots and worming. All puppies have been checked by Coal Valley Kennel veterinarian and have been deemed to be healthy at the time of sale. Coal Valley Kennel offers an unconditional 72 hour guarantee on all of our puppies. If within 72 hours from shipment of puppy, buyer's veterinarian finds any serious illness or congenital defect Coal Valley Kennel will accept the puppy back at buyer's expense. Within the 72 hour guarantee if puppy is found to have serious illness or congenital defect an option of a full refund of purchase price, not including shipping, or a pup of equal value will be given as replacement. Serious illness does not include worms, parasites, fleas, or anything easily treated. Coal Valley Kennel offers a replacement puppy only for any heredity illness or defect after the 72 hour period. Puppies are guaranteed against crippling due to hip dysplasia (except due to trauma) and any crippling or congenital heredity defect, not due to injury, infection, or trauma, until 12 month of age. Buyer is to notify breeder before euthanizing any Newfoundland purchased from Coal Valley Kennel due to a congenital or heredity defect. At that time Coal Valley Kennel will have the option to have said Newfoundland examined by another licensed veterinarian, at breeder's expense. Euthanizing said pup without breeder knowledge voids the said health guarantee. Health guarantee is not transferable, and to apply, puppy must be owned by the original buyer listed in this contract.*

*A replacement pup will be given as soon as possible, if Coal Valley does not have any puppies at the time, buyer will agree to wait until the next available litter for their replacement puppy. Once a replacement pup is selected, buyer will be responsible for transportation of the replacement pup. Any replacement puppy will not carry the 12 month health guarantee.*

*Any pre-existing conditions known to breeder:*
